Once you've moved it to psvr, you'll see the game appear on a big screen in front of you. Now you can enjoy all non-VR games in movie mode psvr. Are you still having problems? Trinus PSVR is a work in progress, so understandably there are some errors. When you first click the Start button in the Trinus PSVR, make sure that the head-mounted display is placed on a permanent surface and points towards you. If you don't have a PSVR on a permanent surface when you first launch, you can track the entire space and you'll have a frustrating time trying to get your cursor to the right place.
